

Haier

Quartz Plus Heating and Cooling Wall-Mounted Split System

Our most energy efficient wall-mounted system for heating,
with a premium, sleek design.

Our Brand

Empowering smarter, happier, and healthier living, Haier leads with smart technologies across a range of home appliances. Haier is the number one brand of connected air conditioner (including smart air conditioner) and the number one brand of healthy Self-Clean air conditioner in the world, measured in terms of retail sales volume in 2023.*

Heating and cooling expertise

As one of the world's largest heating and cooling brands, Haier, founded in China in 1984, offers a comprehensive range of industrial, commercial, and residential air conditioning and water heating products. These are trusted in homes and businesses across the globe.

In Australasia, Haier's strength is complemented by Fisher & Paykel, a trusted brand that is now part of the Haier Group. Together, they leverage Haier's global reach and Fisher & Paykel's local service network to provide industry-leading products and support to our customers in Australia and New Zealand.

5 year warranty

Enjoy peace of mind with a 5 year manufacturer's warranty.

Our goods come with guarantees that cannot be excluded under Australian Consumer Law. You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure. Our Manufacturer's Warranty is in addition to any rights and remedies that you may have and is not intended to limit any rights you may have, under Australian Consumer Law or any other law in relation to our products.

* Data source: Euromonitor International Ltd., measured in terms of retail sales volume in 2023, based on research completed by February 2024. Connected air conditioner is defined as air conditioners with connectivity capability to communicate with other appliances and/or other devices and/or consumers.

Key Features Quartz Plus

2.5, 3.5, 5.0, 6.0, 7.1, 8.0kW

More efficient heating

Quartz Plus is our most efficient model in terms of heating performance, meeting the requirements of many rebate and energy efficiency schemes.

Inhibits airborne germs

Health mode uses UV Protect sterilisation – ultraviolet LED technology used in hospital surface disinfection – to help inhibit airborne bacteria and viruses. The built-in LED UV lights have been shown to inhibit airborne bacteria and viruses at more than 91% effectiveness under specific test conditions.*

Design beyond the surface

Unobtrusive, stylish design is coupled with innovative design features under the hood. A premium back-lit remote makes operation a breeze. Our hydrophilic Blue Fin coating helps to protect the outdoor unit from corrosion while Self-Clean on both indoor and outdoor units helps keep the heat exchanger clean.

Intelligent airflow

Highly engineered airflow to automatically direct warm or cool air for ideal air circulation, air throw of up to 20m and Turbo Cool for fast cooling relief, all designed to create consistent comfort.

Wi-Fi

We believe in integrating smart technology into the heart of every home. The SmarthQ™ app puts control in your hands and means you can control your air conditioner from anywhere at anytime. Our products are also compatible with Google Home and Amazon Alexa.

Tailored comfort

‘I Feel’ mode has been designed to provide personalised comfort. The remote control has a built-in temperature sensor; when you have the remote close at hand and activate the ‘I Feel’ mode, the air conditioner tailors the room’s temperature to where you are.

* Independent testing has found 91.47% elimination of the H3N2 virus in a 30m2 closed room and 92.78% of Staphylococcus aureus bacteria in a 10m3 closed room, for two hours on Health mode at the highest fan speed.

Efficient Design

A combination of 3D Air Flow, Intelligent Air, Coanda Plus Airflow and Turbo Cooling technologies work to deliver air around your space in a more intuitive way to warm or cool your space more quickly.

Energy efficiency

Our most energy efficient wall-mounted system for heating.* Energy efficient innovations on all models including the DC inverter and Eco mode help to reduce how much power you use to heat or cool your home compared to models that don't have these features.

Eco mode

Designed to save energy while maintaining a comfortable room temperature. In Eco mode, the air conditioner adjusts its cooling or heating power to consume less electricity by running the compressor and fan at lower speeds or by cycling them on and off more frequently.

Intelligent Air

Intelligent Air directs cold air upwards and warm air downwards, for effective heating or cooling. Cool air is directed towards the ceiling avoiding a drafty chill on your neck from the cold airflow. The cool air then diffuses from the ceiling to the floor for total comfort.

3D Airflow

For even comfort, our 3D Airflow means the airflow swings horizontally and vertically, evenly distributing the air throughout the space, even in large rooms. Say goodbye to cold corners with more consistent temperatures.

Coanda Plus

In our 2.5-7kW models, Coanda Plus airflow utilises technology from aircraft design, so that air flows further and faster to every corner of the room, giving you a more even and comfortable space.

Far-reaching air flow

With innovative fan and motor technology, air from your Quartz reaches long distances – as much as 20 metres with the 7kW model. The Turbo program boosts the fan to work at a higher speed, bringing you a cool room in a shorter time.

* IU25MAEFRA/AS25QCEHRA rating published by energyrating.gov.au
As tested to government regulations, actual usage may vary.

The global No. 1 connected air conditioner brand*, Haier makes life easier with convenient control of your Wi-Fi enabled appliances through the SmartHQ™ app.

Control from anywhere

Arrive home to comfort by remotely controlling your air conditioner from anywhere.

Intuitive hands-free control

With voice control through Google Home Assistant or Amazon Alexa you can control your air conditioner and ensure the perfect environment without getting off the couch. Try commands like ‘Set the air conditioner to 20 degrees’, or ‘Turn off the air conditioner’.

Control and monitor

Control temperature, operating mode and fan speed, all from your SmartHQ™ app. Check if you remembered to turn the air conditioner off, or set up a schedule to heat or cool your room to the perfect temperature.

Connected living

With Haier and Fisher & Paykel appliances able to be connected to the SmartHQ™ app, you can check in and manage all your other connected appliances, as well as control your air conditioning.

Focusing on air quality, Haier has developed a range of technologies that help to keep your air conditioner clean, functioning efficiently, and putting out fresh, clean air into your home.

UV Protect

UV Protect helps to deliver clean air to your room using Health mode, with built-in LED UV lights that kill airborne Staphylococcus aureus bacteria and the H3N2 virus at more than 91% effectiveness under specific test conditions.**

Antibacterial technology

An internal coating of silver nanoparticles can inhibit bacterial growth on the surfaces of the indoor unit.

Cleaner indoor air

The Self-Clean function rapidly removes unwanted dirt, mould, and dust. Self-Clean technology helps ensure clean airflow from your air conditioner.

Self-Clean on outdoor unit

In addition to the self-cleaning technology within the indoor unit, Quartz Plus has a Self-Clean function for the outdoor unit, helping avoid corrosion. By activating freeze-and-defrost Cold Expansion technology, which loosens, then flushes, salt and dirt away from the outdoor coil, you keep your outdoor unit cleaner, effortlessly.
